

EVOLUTION 4™

Quality

Mart Cart has developed the most advanced battery management system available today for use in a mobility cart. This system's design will significantly increase battery life, greatly reduce your cost of ownership and ensure a positive shopping experience for your customer.

2yr Parts & Labor 4yr Battery

Performance

The new intelligent digital display housed on the handle of the Evolution4 Cart allows users to easily view the charging status, charge percentage, hours of runtime, overall seat and motor hours, and pop-up notifications to aid customer use and service needs.

Value

Everything that goes into the Mart Cart E4 adds value for you and your customers. The now standard 24" seat offers value in a more comfortable ride for customers of all shapes and sizes. The added height makes it easier to get on and off the Evolution 4.
