

# Model 3563™

by **mart cart®**

The Mart Cart® is the No. 1 selling electric shopping cart in the world and is now the industry's first true 100% recyclable electric cart.

## Intelli-Charge System

Uses both audible and visual notification features to increase the battery life of your carts. Ensures properly charged carts for your customers while offering higher performance and a lower cost of ownership.

## Hub Motor Drive System

**This unique front wheel is the motor!**

Maneuvering store aisles is easy and effortless because the Mart Cart models actually turn within the diameter of the rear axle.

- Zero degree turning radius
- Dynamic & regenerative braking *PLUS* electro-mechanical parking brake
- 8" (2.5 cm) non-marking rubber front tire
- 2.1 MPH (3.4 KPH) Forward speed
- 1.0 MPH (1.6 KPH) Reverse speed

## Quick Change Battery Cover

No tool battery change in 60 seconds! Reduce downtime & service charges with a store level battery change. Designed with safety in mind - the battery cover only goes on one way.

# 3563 Features
