The Care Chair® line of shopping wheel chairs offer the same quality and reliability customers have come to know and expect from Mart Cart.

Care Chairs are designed to meet strict design requirements. Unlike some chairs, which are made as cheaply as possible for retail use, Care Chairs are made to a high standard of quality.

Care Chair gives a retail operation a stronger, more durable and more

trouble-free piece of customer service equipment.

This is critical, because unlike most equipment in the store, your customers interact directly and personally with this equipment. Quality here reflects quality throughout your store.
