

mart cart¹

The innovators at Mart Cart are proud to present the E4, the most advanced electric shopping cart available on the market today. Designed from the ground up with the unique needs of today's shopper and store owner in mind. E4 offers the quality, performance and value that Mart Cart is known for and a whole lot more.

Quality, Performance, Value

LCD Display

This new intelligent display shows E4's operational status at a glance.

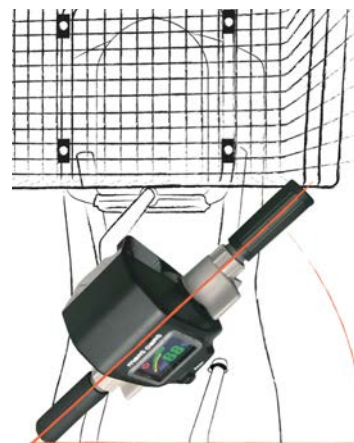

State of charge, hours of operation, charging status, hours of use and operational errors are viewable on this one screen.

Diagnostics Module

E4's service menu allows access to real time data. See performance stats and error messages in English. This information allows for quick and accurate diagnostics in any situation.

2:1 Steering

E4 features an innovative 2:1 chain operated steering system which allows riders to easily utilize HUB motor's maneuverability and tight turning radius. Moving the column a mere 45° gives the rider a full 90° turn for a comfortable, responsive shopping experience.
